

TAWHEED NAMAZ REMINDER APP

(YOUR NAMAZ-YOUR MASJID- YOUR CONNECTION)

USAGE GUIDE

Tawheed Namaz Reminder App is designed to help Muslims maintain punctuality in Salah and stay connected with the masjid. The app provides Azan alerts, Jamaat reminders, nearby masjid information, Qibla direction, Salah tracking, Masnoon Duas, Zikr Counter, and many other useful Islamic features.

This guide explains the purpose and usage of each feature step-by-step so that every user, including first-time users, can easily understand and use the app properly.

1. Prayer Timings Dashboard

Purpose: Shows complete daily namaz timings of your selected masjid.

What You Can See: Start Time / Azan Time / Jamaat Time / End Time / Current prayer status / Next prayer countdown

How to Use

1. Open the app
2. Login to your account
3. **Home Screen** will open automatically
4. **Daily prayer timings will appear on the screen**

Benefit : Helps users offer namaz on time and stay updated with jamaat timings.

2. Azan & Jamaat Notifications

Purpose : Sends reminders for Azan and Jamaat.

How to Use

1. Click “**My Preferences / Notifications**”
2. Turn ON “Master Enable”
3. Select the namaz notifications you want
4. Enable:
 - **Azan Notification** (Starting introductory 2 lines of Azan will come as per your masjid azan timing)
 - **Jamaat Notification** (After 5 mins of Azan Jamath notification will come it will consist of Accept/Decline/Snooze options)

Additional Options

- Accept → Marks prayer attendance

- Decline → Stores missed prayer record
- Snooze → Sends reminder again later

Benefit: Prevents users from missing namaz and jamaat.

Note: If you do not want notifications for a particular namaz, you can disable them individually. To disable all notifications at once, turn OFF the “Master Enable” option available at the top of the screen.

3. Salah Tracker / Attendance

Purpose: Tracks daily prayer attendance.

How to Use:

1. Open “**Salah Tracker**”
2. View attendance reports

Note: Salah attendance is stored in the Salah Tracker only when the user clicks **Accept** or **Decline** from the Jamaat notification. If notifications are turned OFF, the app cannot automatically record attendance, and all namaz entries may appear as unread or unmarked. In such cases, users must manually mark the prayers later. For better tracking and accurate attendance records, it is recommended to keep Jamaat notifications enabled in the Notification Settings.

Available Reports: Daily / Weekly / Monthly / Yearly / Calendar View

Additional Feature: Missed namaz can later be marked as Qaza completed.

Benefit: Helps users maintain consistency in salah.

4. Upcoming Jamaat

Purpose: Shows upcoming Jamaat timings of all registered masjids within the user’s village or town.

How to Use:

When any namaz time starts, the “**Upcoming Jamaat**” tab will automatically appear below the namaz timings table on the Home Screen.

1. Open the Home Screen
2. Click the “**Upcoming Jamaat**” tab
3. List of registered masjid jamaat timings within your village/town will be displayed
4. Click on any masjid name
5. Navigation will open automatically for directions to that masjid

Benefit: If one jamaat is missed, users can quickly find another nearby jamaat.

Note: If all Jamaat timings are completed, the “Upcoming Jamaat” tab will automatically disappear from the Home Screen. If the tab is not visible, it may mean either no masjid is registered in the app for your village/town or all Jamaat timings for the current namaz have already ended.

5. Nearby Masjid Finder

Purpose : Finds nearby masjids within 10 KM radius.

How to Use

1. Open “Nearby Masjids”
2. Allow Location Permission
3. A list of nearby registered masjids available in the app within a 10 KM radius will be displayed.
4. Click Direction button for navigation

Information Displayed: Masjid Name, Distance , Address , Navigation Option

Benefit: Very useful for: Travelers / Musafirs /New city visitors

6. Personalized Namaz Timings

Purpose : Allows users to manually adjust Jamaat timings according to their daily routine.

Why This Feature is Useful

Many users offer namaz in different masjids due to jobs, business, college, travel, or other personal reasons. For example, a user may pray Fajr and Isha in their local masjid, but Dhuhhr and Asr near their workplace.

This feature helps users set personalized timings so they can receive accurate Jamaat notifications based on where they usually pray.

How to Use

1. Open “My Preferences/Notifications”
2. Select the namaz timing
3. Manually change Azan or Jamaat timing
4. Save changes

Reset Option

If you want original masjid timings again:

1. Click “Reset Defaults” at top of the screen in My preference/Notifications
2. All timings return to masjid default timings

Benefit: Useful for: Office workers /Students / Travelers /Users praying in different masjids

7. Change Default Masjid

Purpose : Allows users to change their home/default masjid according to their current location.

Why This Feature is Useful

This feature is helpful when users travel to another village or city for office work, business, relatives' homes, holidays, or weekends in their hometown. Since Jamaat timings may differ from one masjid to another, users can easily change their default masjid and receive accurate Azan and Jamaat notifications based on their current location.

How to Use

1. Open “**Registered/Default Masjids**”
 - o Search masjid using: State, District, Mandal and Village
2. Select masjid
3. Enable “Change Your Home Masjid”
4. Click Confirm

Benefit: Users receive notifications according to the currently selected masjid.

8. Masnoon Duas

Purpose: Provides Masnoon Duas used in daily life so users can easily learn and recite Sunnah duas in different situations

Available Languages: Arabic / Roman English /Roman Telugu

How to Use

1. Open “**Masnoon Duas**”
2. Select the required dua
3. Read in preferred language

Benefit: Helps users easily learn and recite Sunnah duas.

9. Zikr Counter

Purpose : Digital tasbeeh counter for daily zikr.

How to Use

1. Open “**Zikr Counter**”
2. Select available zikr OR add custom zikr
3. Set target count
4. Tap center screen to count zikr
5. Use Reset to restart counting

Additional Features

- Sound ON/OFF
- Vibration ON/OFF

Benefit: Helps users track zikr anywhere without physical tasbeeh.

10. Qibla Finder

Purpose: Shows correct Qibla direction.

How to Use

1. Open “**Qibla Finder**”
2. Turn ON mobile Location
3. Hold phone straight
4. Move phone slightly for compass calibration

5. Wait for green signal/vibration (Green indicator and vibration confirm the correct Qibla direction.)

Benefit: Helps users pray in correct direction anywhere in the world.

11. Namaz Guide

This section contains multiple namaz-related guidance features.

11.1 Namaz Rakats Guide

Purpose: Shows complete rakats information for every namaz.

How to Use

1. Open “**Namaz Guide**”
2. View: Sunnat / Farz / Nafl / Witr / Total Rakats

Benefit: Helpful for beginners and children learning namaz.

11.2 Namaz Ka Tariqa

Purpose: Provides step-by-step guidance for performing different types of namaz

How to Use

1. Open the **Namaz Guide** section
2. See the **Namaz Ka Tariqa**
3. Choose:
 - Namaz ka Tariqa
 - Eid Namaz ka Tariqa
 - Janaza ki Namaz ka Tariqa
4. View the complete step-by-step method.

Benefit: Helps users learn and revise the correct method of offering different prayers.

11.3. Nafl Namaz Information

Purpose: Provides details of important Nafl prayers.

Included Namaz: Tahajjud / Ishraq / Chasht / Awwabeen

How to Use

1. Open “**Namaz Guide**”
2. Scroll to Nafl Namaz section
3. Select any Nafl Namaz
 - View: Timing, Rakats and Fazilat

Benefit: Encourages users to perform additional voluntary prayers.
